

# Dedication Opportunities

Like many synagogues, Temple Kol Emeth is sensitive to the ebb and flow of economic cycles. As a forward thinking congregation, part of the reason we write this Torah is to establish a fiscal foundation for our future. Capital raised during this project will be used to balance budgets and provide a lasting Reform Jewish home for our children. Our goal of 100% participation means we want everyone in our congregation to step up and fill in a letter in our new scroll. While there is certainly no financial obligation to do so, it is our hope that you will find a comfortable dedication level to become part of this special project.
